ANESTHESIOLOGY

Volume 10

INDEX TO SUBJECTS

* Asterisk indicates titled subjects of articles

α,β, dihydroxy-γ-(2-methylphenoxy) propane (see myanesin)
Acetylcholine, relation to procaine, 413
Acetylsalicylate, potency of, 555
Addison's disease, effect of morphine in, 554
Adrenal glands, relation to hyperglycemia, 383
Adreno-cortical extract, effect on brain, 554
Age, effect on reactivity to morphine, 557
Allergy, morphine, 553*
Amidones, 214*
  analgesic properties of, 280*
  potency, 555
Aminophylline, effect on bronchi, 457
Amnesia, during labor, 15*
Analgesics, relative potency of, 555
Anaphylactic shock, after procaine, 753*
Anesthesia
  block,
    brachial plexus, 627*
    caudal, 152, 473*
    continuous epidural, 733*
    continuous lumbar sympathetic, 92*
    continuous spinal, 193*
    paravertebral, 295
    saddle, 153, 489*, 517*
    suprascapular, 76*
    therapeutic, 92*
    transtracheal, 736*
  endotracheal, positive pressure, 743*
  for abdominal surgery, spinal, 494*
  for cardiac surgery, 590*
  for children, 590*
  for dentistry, 234
  for neurosurgery, 82*
  for obstetrics, 473*
    saddle block, 517*
  for patient with thyroid disease, 444*
  for proctology, 489*
  for thoracic surgery, 295, 743*
  for tuberculous patients, 295*
  hyperglycemia during, 379*
  in Cleveland Clinic, 101*
  in Sweden, 234
  learning of, 157*
  local,
    for neurosurgery, 84
    for thoracic surgery, 295
  physical principles, 247
  positive pressure, 743*
  repeated, 111
  spinal,
    blood studies during, 677*
    complications after, 325*
    cough test for, 639
    effect of vasoconstrictors with, 40*
    effect on blood sugar, 379
    effect on circulation, 130
    for upper abdominal surgery, 494*
    nupercaine-glucose, 270*
    pontocaine, 289*, 621
    pontocaine-glucose, 260*
    prolongation of, 260*
    saddle, 153, 489*, 517*
  study commissions, 755*
  therapeutic, 175*
  transtracheal, 736*
Anesthesiologist, relation to public, 634*
Anesthesiology,
  in practice of medicine, 223*
  relation of research to, 690*
Anesthetics,
  effect on uterine motility, 151*
  local, cytotoxicity, 202*
Anoxia
  effect on blood sugar, 379
  effect on brain, 369*, 663*
  effect on vomiting, 556
Anuria, treatment, intravenous procaine, 184
Apparatus,
  acoustic gas analyzer, 2
  adapter for gastrointestinal tubes, 643
  airway, plastic, 358
  anesthetic equipment panel, 637
  blood pressure, 764
  blood transfusion, 189, 645
  cart with restraint strap, 639
  cylinders, hazard, 364
  endotracheal tube, 714*
    instrument for inserting cuff, 363
    marking of, 112
    measurement of, 113
  experimental study, 251

fluid carrier, 763
infra-red gas analyzer, 766
mask adapter, universal, 233
mattress for lateral decubitus, 758
mechanical respirators, 673*
screens, home-made, 759
Statometer, 483
syringe holder, 642
vapor-proof lamp, 362
Vapotester, 479*
Arthralgia, treatment, intravenous procaine, 178
Arthritis, treatment, intravenous procaine, 178, 180
Asphyxia, effect of premedication on, 164*
Atelectasis, effect of atropine on, 340
Atropine sulfate,
effect on action of mecholyl, 458
effect on atelectasis, 340
effect on cardiac action, 593
effect on cardiac arrhythmias, 569
effect on signs of asphyxia, 166
Avertin, for neurosurgery, 85

Barbiturates,
antagonism, desoxyephedrine, 486
effect on blood sugar, 383
effect on cardiac vagus nerve, 585*
effect on heart, 585*
effect on procaine toxicity, 347
effect on respiratory minute volume, 548*
effect on signs of asphyxia, 169
psycho-pharmacologic effect, 555
synergism with morphine, 557
with demerol, dangers, 23
Benedryl, effect on bronchi, 453
Benzimidazole, synergism with myanesin, 539
2-Benzyl-imidazoline (see priscol)
Bleeding, postoperative, relation to anesthesia, 82
Blood,
carbon dioxide during spinal anesthesia, 677*
donors, venous pressure of, 147
gases, 54*, 677*
groups, 188
oxygen content of, during spinal anesthesia, 677*
pressure
after saddle block, 525
arterial, recording of, 125*
changes, effect on cerebral blood flow, 611
during cyclopropane anesthesia, 416*
during diffusion respiration, 54*, 615*
venous, relation to blood volume, 145*
refrigeration of, 190
role in detoxication of pentothal, 427
storage of, 190
transfusion,
rate of flow, 190
reactions, 188*, 359
venous pressure following, 147
volume,
effect of pontocaine anesthesia on, 289*
relation to blood pressure, 145*
Brain
circulation of, 610*
during anesthesia, 82
effect of anoxia on, 369*, 663*
Bronchi,
effect of ether on, 296
effect of isopropyl adrenalin on, 451*
Bronchoscopy, after thoracic surgery, 299
Bronchospasm, 746
Butanefrine, effect on bronchi, 453

Carbon dioxide tensions, effect on cerebral vessels, 611
Cauterization, effect in thoracic surgery, 297
Chloroform, effect on blood sugar, 379
Cholinesterase, relation to procaine, 413
Circulation,
cerebral, 610*
during anesthesia, studies, 125*
Cocaine, use during heart surgery, 593
Codeine sulfate,
effect on vomiting, 559
potency, 555
Complications,
after brachial plexus block, 627
after cardiac surgery, 596
after demerol-nitrous oxide anesthesia, 699
after general anesthesia,
air embolism, 357
effect of desoxyephedrine, 485
after intravenous procaine, 753*
after intubation, 714*
after neurosurgery, 82, 90
after saddle anesthesia, 492, 518, 525
after spinal anesthesia, 267, 275
convulsions, 231
massive pulmonary collapse, 325*
nerve paralysis, 641
after tonsillectomy, 729*
after thoracic surgery, 295*, 302
breaking of Magill forcep, 511
Compounds no. 12 and no. 178, 567
Congenital spastic disease, treatment, intravenous procaine, 184
Convulsions,
after demerol intravenously, 168
after pontocaine intraspinally, 231*
Cough test, 639
Creatine phosphate, relation to procaine, 413
Curare,
early use of, 766
with pentothal, 387*
with procaine analgesia, 348
Cyclobutane, 469*
Cycloheptenylethyl barbiturate (see medomin)
Cyclohexane, 318*
Cyclopentane, 318*
Cyclopropane,
effect on blood sugar, 379

effect on heart, 374*
effect on heart work capacity, 706*
effect on uterine motility, 151*
epinephrine with, effect on heart,
effect of blood pressure on, 416*
effect of dibenamine on, 562*
for cardiac surgery, 592
for neurosurgery, 85
for thoracic surgery, 296

Death during anesthesia, pathology of, 105*
Demerol, 280
effect on cardiac arrhythmias, 570
effect on signs of asphyxia, 168
effect on vomiting, 558
intravenously, 15
convulsions following, 168
potency, 555
with barbiturates, danger of, 23
with morphine, danger of 23
with scopolamine, during labor, 15*
with nitrous oxide anesthesia, 696*
Dermatitis, after metycaine, 512
Desoxyephedrine hydrochloride,
clinical use, 484*
for obstetrics, 486
Diaphragm, during brachial plexus anesthesia, 627*
Dibenamine,
during cyclopentane anesthesia, 321
during cyclopropane anesthesia, 562*
Dibucaine (see nupercaine)
Dihydroergotamine methane-sulfonate, effect on cardiac arrhythmias, 567
1(3,4-dihydroxyphenyl)-2-isopropyl aminoethanol hydrochloride, effect on bronchi, 451*
Dilaudid, effect on vomiting, 558
Diothane, cytotoxicity, 206
d-l amidone, 280
d,l-isoamidone, 281
Dramamine, effect on nausea, 767

Editorials, 105, 223, 354, 505, 634, 755
Electrocardiography, during diffusion respiration, 615*
Electroencephalography,
during nitrous oxide anesthesia, 601*
effect of succinate, on, 28
Embolism, 357
Ephedrine,
effect on duration of spinal anesthesia, 42, 260*
effect on procaine toxicity, 347
Epinephrine,
cyclopropane arrhythmias,
effect of dibenamine, 321, 562*
relation of blood pressure to, 416*
effect on bronchi, 457
effect on duration of spinal anesthesia, 42, 260*, 521
Ergotamine tartrate, effect on cardiac arrhythmias, 567

Etamon (see tetra-ethyl ammonium chloride)
Ether,
effect on blood sugar, 379
effect on brain, 670
for neurosurgery, 84
for thoracic surgery, 296
meter, 2
oxygen saturation of blood during, 247*
tensions, 1*, 247*
Ethylene, effect on uterine motility, 153
Explosion hazard, detection of, 479*

Fainting, effect of morphine, 556
Fever, effect on morphine action, 555
Fractures, treatment, intravenous procaine, 177

Gangrene, treatment, intravenous procaine, 182
Glucose, with spinal anesthetic agents, 260, 270*

Heart,
during anesthesia, effect of procaine on, 133*
during cyclopropane anesthesia, 374*
effect of dibenamine on, 562*
relation of blood pressure to, 416*
during diffusion respiration, 615*
effect of hypnotics on, 585*
effect of intravenous procaine on, 133*, 406*
effect of myanesin, 531
function, during anesthesia, 129
surgery of, anesthetic problems, 590*
work capacity, effect of anesthesia, 706*
Hemolysis, after myanesin, 530, 535
Hematocrit, effect on cerebral circulation, 611
Histamine, effect on bronchi, 456
Hodgkin's disease, treatment, intravenous procaine, 184
Hydrogen ion concentration, effect on cerebral vessels, 611
Hyperglycemia, during anesthesia, 379*
Hyperthermia, effect on anoxia, 593
Hypnotics, effect on heart, 585*
Hypoglycemia, effect on brain, 666
Hypospray, 66*
Hypothermia, during cardiac surgery, 594
Hypoxia, before anesthesia, 591
Hysterography, 151*

Intervertebral disk, treatment, intravenous procaine, 179
Intracaine, cycotoxicity, 206
Intubation,
after transtracheal anesthesia, 736
detection of breath sounds during, 513
of children, 592
prolonged, 109
trauma following, 714*
Isonipicaine (see demerol)

Isopropyl adrenalin, 451*
Isuprel (see isopropyl adrenalin)

Jet Injection, 66*

Kidney, effect of procaine on, 184, 741

Lacerations, repair of, intravenous procaine for, 180
l-amidone, 281
Leptazol (see metrazol)
l-isoamidone, 281
Liver,
  effect of anesthesia on, 379
  effect of intravenous procaine on, 739*
  role in pentothal detoxication, 421*
Lymphangitis, after morphine injection, 556

Magill forcep, breakage of, 511
Malignancy, treatment, intravenous procaine, 183
Massive pulmonary collapse, 325*
Mecholyl, effect on bronchi, 456
Medomin, effect on heart, 585*
Mental function, relation to cerebral metabolism, 613
Meperidine hydrochloride (see demerol)
Methadon (see amidone)
Methedrine sulfate, effect on circulation, 130
Methylcyclobutane, 625*
Metapon, 280
Metycaine,
  cytotoxicity, 206
  dermatitis following, 512
  saddle block with, 517*
Millikan oximeter, 248, 678
Morphine sulfate,
  effect on respiratory minute volume, 548*
  effect on signs of asphyxia, 167
  for children, 591
  potency, 555
  sensitivity to, 553*
  synergists, 557
  with demerol, dangers, 23
Mucus, effect of priscol, 567
Multiple sclerosis, treatment, intravenous procaine, 184
Myanesin,
  antagonism, 529
  effect on heart, 397
  hemolytic effect of, 530, 535
  muscle relaxation from, 61*
  pharmacology of, 529*
  with pentothal, 393*
Myofascitis, treatment, intravenous procaine, 179

Nausea,
  effect of dramamine, 767
  relation to blood oxygen, 687
Neosynephrin, effect on duration of spinal anesthesia, 42, 260*
Nerve, phrenic, paralysis during brachial plexus block, 627*
Neuritides, treatment, intravenous procaine, 181
Nitrous oxide,
  asphyxia during, effect of premedication, 164*
  demerol with, 696*
  for neurosurgery, 86
  heavy premedication with, 548
  partial pressures of, effect on depth of anesthesia, 601*
N-methylphenylisopropylamine (see desoxyephedrine)
N,N-dibenzyl-β-chloroethylamine (see dibenamine)
Nupercaine,
  cycotoxicity, 206
  spinal anesthesia with, 270*, 494*
  toxicity, 277
  vasoconstrictors with, 40

Oenethyl, effect on duration of spinal anesthesia, 42
Osteoarthritis, treatment, intravenous procaine, 181
O-tolyl ether (see myanesin)
Oxygen tensions, 247*, 612
Oxymeter, 248

Pain,
  effect of intravenous procaine, 175*, 629*
  shoulder, treatment, 76*
Pantopon, effect on vomiting, 558
Paralysis agitans, treatment, intravenous procaine, 184
Partial pressures, effect on anesthesia, 601*
Pauling oxygen meter, 248
Pentobarbital sodium, effect on signs of asphyxia, 170
Pentothal sodium,
  detoxication, 421*
  duration of anesthesia with, 387*
  effect on brain, 668
  for neurosurgery, 85
  rectal administration of, 401*
  repeated administration of, 111*
  succinate antagonism, 25*
  with curare, 387*
  with myanesin, 393*
  with pituitrin, circulatory collapse following, 544*
  with procaine intravenously, 348
Percaine (see nupercaine)
Phenobarbital, effect on heart, 585*
Pituitrin, with pentothal, circulatory collapse following, 544*
Plasma volume, after spinal anesthesia, 291
Pneumatic balance resuscitator, 673
Poliomyelitis, treatment, intravenous procaine, 183

Pontocaine,
convulsions following use of, 231
cytotoxicity, 206
hypobaric, spinal anesthesia with, 621*
saddle anesthesia with, 489
spinal anesthesia with, blood volume during, 289*
vasoconstrictors with, 40
with glucose and pressor drugs, 260*
with procaine, caudal anesthesia, 473*
Position,
after saddle block, 490
after morphine administration, 556
after spinal anesthesia, 621
effect on circulation, 130
effect on pulmonary function, 577*
Postanesthesia unit, 351*
Potassium ion, relation to procaine, 413
Premedication,
before thoracic surgery, 298
effect on respiration, 548
effect on signs of asphyxia, 164*
for children, 401*
before cardiac surgery, 591
for labor, 15
rectal pentothal, 401*
Priscol hydrochloride, effect in cardiac arrhythmias, 567
Procaine, hydrochloride,
cytotoxicity, 206
intravenously,
anaphylactic reaction to, 753*
effect on heart, 133*, 406*, 564*, 571
effect on liver, 739*
effect on neuromuscular disorders, 629*
metabolism of, 346
pharmacologic action of, 343
therapeutic uses, 175*
toxicity, 346
with pontocaine, caudal anesthesia, 473*
Pruritus, treatment, intravenous procaine, 184
Pupil, effect of amidone on, 287

Reflex sympathetic dystrophy, treatment, intravenous procaine, 179
Refrigeration, during cardiac surgery, 594
Respiration,
automatic controlled, 673*
diffusion, 54*, 615*
effect of heavy premedication, 548*
effect of position, 577*
manually controlled, effect on circulation, 131
Respirator, 248, 673*
Rh factor, 189

Salivation, effect of priscol, 567
Scopolamine,
effect on respiratory minute volume, 548*
effect on signs of asphyxia, 168
synergism with morphine, 557
with demerol, during labor, 15*
Seasons, effect on cardiac arrhythmias, 563
Seconal, effect on heart muscle, 585
Serum sickness, treatment, intravenous procaine, 184
Shock,
effect on reactivity to morphine, 557
"pituitrin," 544*
venous pressure during, 145
Smoke, of cauterization, effect during anesthesia, 297
Sodium 5-allyl-5-(1-methylbutyl)-2-thiobarbiturate (see surital)
Sodium amytal, effect on signs of asphyxia, 171
Sodium 5-ethyl-isoamyl-2-thiobarbiturate (see thioethamyl)
Staticator, 229*
Statometer, 483
Strychnine, myanesin antagonism, 540
Succinate,
contraindication to use of, 34
pentothal antagonism, 25*
Surital, myanesin with, 537

Technics,
anesthetic for neurosurgery, 187
caudal block, 474
continuous lumbar sympathetic, 93
continuous segmental epidural, 733*
continuous spinal, 194
demerol-nitrous oxide anesthesia, 697
saddle block, 489*, 518
spinal nupercaine-glucose, 272*, 497
transtracheal, 736*
Tetra-ethyl ammonium chloride, treatment of vascular disease, 429*
Thiobarbiturates, myanesin with, 537
Thiopentone (see pentothal)
Thrombo-angiitis obliterans, effect of intravenous procaine, 182
Thyroid disease, anesthetic management, 444*
Tidal volume, effect of premedication on, 548
Tocograph, studies with, 151*
Tonsillectomy, hemiplegia following, 729*
Traction, circulatory effects of, 127
Trench foot, treatment, intravenous procaine, 182
Tuberculosis "spreads" after anesthesia, 302

Urticaria, after morphine, 560
Uterus,
effect of anesthetics on, 151*

Vascular disease, treatment, intravenous procaine, 182
Vasoconstrictors, effect on duration of spinal anesthesia, 40*
Vapotester, 479*
Vitamin C, with procaine therapy, 185
Vomiting,
effect of anoxia, 556
effect of narcotics, 558
